Welcome to the Sofia Coppola Home Page!

This website is meant to really capture Coppola's hit films and some of my personal thoughts on them + social discourse related to it like adding some of my favorite video essays. In general if you seem to favor cinematography, Sofia's films, or just like discourse on film and soccity in general, this is the place for you.

Alternate 2

Notes:

- This page would feature a new aesthetic inspired from museum frames/themed, the outline color will be replaced by an image for some reason my computer is not allowing me to input for now
- And same hover, b&w to color feature
- The nav bar will have a small opacity level

Alternate 3

Notes: This will auto scroll and slow down once someone wants to hover over and click on, and the same b&w -> color feature when hovered over feature

- This page would feature a new aesthetic inspired from another work that tracks Coppola's work (her Personally Published Archive)
- Hopefully I get to edit on the corner a page where it would look like a book flipping pages into the new page around here and it bounces to make it clear to the user
